

Subject | **LEED Information**

Dear Valued Customer,

This letter is to provide information concerning the material specification and use of recycled material content for products manufactured by Gyford Productions, LLC. Our product lines include the use of three material types, as listed below.

Aluminum Extruded Bar | All SO, EZ, WS and SL Components

- 6061-T6511 Material
- Manufactured under ASTM-B221-08 specifications
- Material manufactured to T6511 specifications also meets T6 requirements
- Material manufactured in compliance to directive EN 10204 3.1
- Melted and manufactured in the USA
- 15% Post Consumer Recycled Content | purchased scrap from external sources
- 40% Post Industrial Recycled Content | internal scrap that is reprocessed

Aluminum Extrusion Profile | All SL & EZ Extrusions, SO-A14 and SO-A24 Hubs

- 6063-T5 Material
- Manufactured under ASTM-B221-06 specifications
- Material manufactured in compliance to directive EN 10204 3.1
- Melted and manufactured in the USA
- No recycled content

Stainless Steel | All Stainless Components

- 316/316L Material
- Manufactured under ASTM-A276/08 & ASTM-A479/08 specifications
- Manufactured in compliance to directive EN 10204 3.1
- Melted and manufactured in the USA
- 80% Post Consumer Recycled Content | purchased scrap from external sources
- 10% Post Industrial Recycled Content | internal scrap that is reprocessed

Please contact our office should you have any further questions.

Sincerely,

Toni Lacombe
Project Manager
