#### CONTRACTOR

Target Building, Crum Lynne, PA  
[www.targetbuilding.com](http://www.targetbuilding.com)

#### SALES REPRESENTATIVE

Gillian Kennedy, Downingtown, PA

#### LUMICOR DÉCORS

Custom "Rainbow Connection"  
Custom "Pacific Wipe Out"

#### DESIGN CHALLENGE

Create a colorful, fun environment to help distract pediatric patients from the stress of being in a hospital, adding to their comfort and well-being, while still facilitating the patient care and privacy needed in a clinic space.

#### SOLUTION

The reception desk was clad with beautiful, custom Pacific blue Lumicor panels, complementing the richly hued walls in the waiting area. Dividers along the length of the reception desk were created using a custom rainbow yarn décor, creating a vibrant point of interest, adding a lighthearted feel to the overall interior décor. Lumicor worked in collaboration with Nemours to develop and fabricate all elements of this customized installation.

#### RESULT

A playful, unique reception area that delights young visitors while maintaining privacy for patients and efficiency for staff.
