

DESIGNER SERIES CAPS

CUSTOM LASER ENGRAVING

Custom designed standoffs featuring your logo or a custom laser-engraved design of your choice

You already know Gyford Standoff Systems produces the the most attractive sign standoffs available, with a consistency and quality unmatched in the market. Did you know they're *also* the most customizable? Here's how it works:

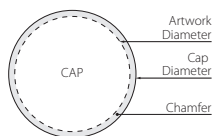

Step 1: Select a cap

Choose your preferred diameter:

Cap (Part Number)	Cap Diameter	Artwork Diameter
SO-CAP75	3/4"	21/32" (.661")
*SO-CAP9	1"	29/32" (.991")
*SO-CAP3	1-1/4"	1-5/32" (1.161")
*SO-CAP10	1-1/2"	1-7/16" (1.4375")
SO-CAP22R	2"	1-7/8" (1.885")

*Sizes also available in Stainless Steel.

Artwork Diameter is the maximum printable area for the cap, determined by the amount of (bevel) chamfer.

Step 2: Select a finish

Custom anodized colors:

Or, choose your own powder coating:

Choose from the entire RAL palette for powder coating.

The actual color may vary per part based upon various conditions (ie: types of materials, types of mfg. process, the actual anodize process, etc).

Step 3: Customize a design

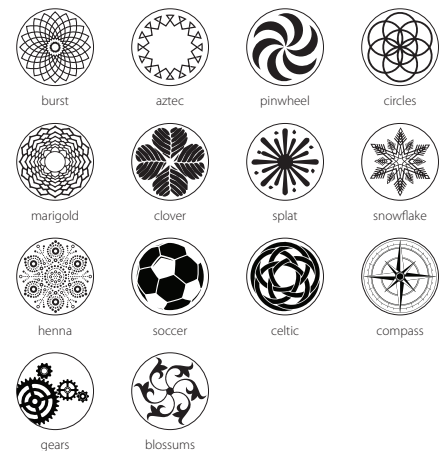

Provide your own logo or design:

Specifics:

- Minimum quantity of four (4) standoff caps per design.
- Allow a 10-day turnaround.
- Design will be printed as a single color/tone, laser-etched to the surface of the caps.
- Artwork provided as vector line-art (eps or ai) format, scaled to fit *Artwork Diameter* (Step 1).
- Provided artwork to be emailed to info@standoffsystems.com
- Additional custom charges apply, call for details.

Or, select from a set of pre-defined designs:
